DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 22, after "according to claim", '16' has been deleted and -- 15 -- has been inserted.

Allowable Subject Matter

Claims 15,21-24 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record either taken singularly or in combination fail to disclose the invention as claimed. In particular, reference to Calleson's 339, Lee's 827 and Baldantoni's 016 are the closest prior art but fails to disclose that the ridge is provided on the outer surface of the second member of the first header tank, the outlet header has interior partitioned into two spaces by a flow dividing resistance plate; the other heat exchange tubes are joined to the outlet header in communication with one of the spaces, the resistance plate has a refrigerant passing hole formed therein, and the partition wall and the plate are formed integrally with the second member, in conjunction with other limitations in the claims.

Art Unit: 3744

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
